SECTION 2: Election Tax Rate

For a low tax rate water district, the election tax rate is the highest total tax rate the district may adopt without holding an automatic election to approve the adopted tax rate.

For a developing water district, the election tax rate is the highest total tax rate the district may adopt before qualified voters of the district may petition for an election to lower the adopted tax rate.

If any part of a developed water district is located in an area declared a disaster area during the current tax year by the governor or by the president, the board of the district may calculate the election tax rate as the highest tax rate the district may adopt without holding an automatic election to approve the adopted tax rate.

In these cases, the election tax rate is the rate that would impose 1.08 times the amount of tax imposed by the district in the preceding year on the average appraised value of a residence homestead in the water district. The average appraised value disregards any homestead exemption available only to people with disabilities or those age 65 or older.

van	Activity	Amount/Rate
Line		65,511
14.	2019 average taxable value of residence homestead. Enter the amount from Line 3.	
		0.013554
	2019 adopted total tax rate.	8.87
16.	2019 total tax on average residence homestead Multiply Line 14 by Line 15.	0.07
	2020 highest amount of taxes per average residence homestead. Multiply Line 16 by 1.08.	9.18
		0.014413
18.	2020 tax election tax rate. Divide Line 17 by Line 9 and multiply by \$100.	

SECTION 3: Taxing Unit Representative Name and Signature

Enter the name of the person preparing the tax rate as authorized by the governing body of the taxing unit. By signing below, you certify that you are the designated officer or employee of the taxing unit and have calculated the tax rates in accordance with requirements in Water Code.
